# Nu-Trol<sup>™</sup> Control Cleaner for Electronics 401B Technical Data Sheet

401B-Aerosol

#### **Description**

The 401B *Nu-Trol*<sup>™</sup> *Control Cleaner for Electronics* is a unique blend of high purity solvents and a lubricating mineral oil that is excellent for cleaning and lubricating delicate moving parts in electronics. The solvent system also effectively dissolves oil and organic residues.

## **Application**

This product is useful in a variety of electronics applications such as controls, potentiometers, dials, switches, tuners, and servomechanisms. It is also good for general purpose cleaning and lubricating of moving parts for such things as locks, hinges, and power tools.

#### **Features and Benefits**

- Suitable for Use in Food Facilities as a Non-Food Chemical—Canadian and NFS recognition letters available on request
- Safe on many plastics
- Contains electronic grade mineral oil
- A variable valve on the aerosol lets you adjust the flow rate as needed
- CARB and RoHS compliant

#### **Usage Parameters**

| Properties | Value |
|------------|-------|
| Shelf Life | 5 y   |

#### **Temperature Ranges**

| Properties           | Value          |
|----------------------|----------------|
| Storage Temperature  | -20 to 40 °C   |
| Limits <sup>a)</sup> | [-4 to 104 °F] |

a) Storage below zero is not necessary. Cool, dry, and well ventilated area recommended.

## **Properties**

| Physical Properties            | Method     | Value                    |
|--------------------------------|------------|--------------------------|
| Color                          |            | Clear                    |
| Odor                           | _          | Mild hydrocarbon         |
| Density @25°C [77 °F]          |            | 0.73 g/mL                |
| Viscosity @25°C [77 °F]        |            | <20.5 mm <sup>2</sup> /s |
| Flash Point                    | Closed Cup | -29 °C [-20 °F]          |
| Boiling Point                  |            | 52 °C [126 °F]           |
| Vapor Pressure @25°C [77 °F]   |            | 22 kPa [167 mmHg]        |
| Volatile Organic Content (VOC) |            | 75%                      |
| Solubility in Water            |            | Insoluble                |
|                                |            |                          |

401B-Aerosol

## Compatibility

**Substrate Compatibility:** Consult 401B partial compatibility chart table for substrate compatibility. It is always recommended to perform a compatibility test on a non-critical test area prior to large scale applications. Perform this test even if the chart predicts high compatibility since modern plastic parts may incorporated hidden incompatible materials in the form of plastic blends or as protective and decorative coatings.

**Compatibility Chart** 

| Plastic type                         | Resistance |
|--------------------------------------|------------|
| Epoxy                                | Very Good  |
| ABS (acrylonitrile butadiene styrene | Poor       |
| PMMA (Acrylic)                       | Good       |
| PVC (Polyvinyl chloride)             | Good       |
| HD-PE (high density polyethylene)    | Good       |
| LD-PE (low density polyethylene)     | Partial    |
| PP (polypropylene)                   | Good       |
| PS (polystyrene)                     | Partial    |
| PC (Polycarbonate)                   | Poor       |
| , , ,                                |            |

#### **ATTENTION!**

Use with care on thin plastics or near parts that are chemically sensitive.

Solvent Miscibility: The 401B is generally miscible organic solvent, but it is immiscible with water.

## Health, Safety, and Environmental Awareness

Please see the 401B **Safety Data Sheet** (SDS) for more details on transportation, storage, handling and other security guidelines.

**Health and Safety:** This liquid is flammable and should be kept away from flames and other ignition sources. Avoid breathing in fumes or direct contact with the material.

#### **HMIS® RATING**

| HEALTH:              | * | 2 |
|----------------------|---|---|
| FLAMMABILITY:        |   | 3 |
| PHYSICAL HAZARD:     |   | 0 |
| PERSONAL PROTECTION: |   |   |

**NFPA® 704 CODES** 

Approximate HMIS and NFPA Risk Ratings Legend:

0 (Low or none); 1 (Slight); 2 (Moderate); 3 (Serious); 4 (Severe)

**Environmental Impact:** It is RoHS and CARB compliant.

401B-Aerosol

#### **Application Instructions**

#### To clean residues in aerosol format

- 1. Spray dirty area.
- 2. Ensure that wash runs off the circuit board along the shortest unencumbered path to prevent redeposit of solvated residues

#### **Packaging and Supporting Products**

| Cat. No.  | Packaging | Net Volume |            | Net Weight |         | Packaging Weight     |                      |
|-----------|-----------|------------|------------|------------|---------|----------------------|----------------------|
| 401B-140G | Aerosol   | 188 mL     | 6.35 fl oz | 140 g      | 4.93 oz | 2.2 kg <sup>a)</sup> | 4.9 lb <sup>a)</sup> |
| 401B-340G | Aerosol   | 457 mL     | 15.4 fl oz | 340 g      | 11.9 oz | 4.6 kg <sup>a)</sup> | 10 lb <sup>a)</sup>  |

a) Case pack of ten
